SMARTTOUCH 2 WATERPROOF DISPLAY

MAIN SCREEN

Spa Status

Important information about spa operation can be seen on the Main Screen. Most features, including Set Temperature adjustment, can be accessed from this screen.
The actual water temperature and Set Temperature can be seen, and the Set Temperature can be adjusted (see page 25). Time-of-Day, Ozone and Filter status is available, along with other messages and alerts. The selected Temperature Range is indicated in the upper left corner. The Spa Equipment Control Icon will spin if any pump is running. A Lock icon is visible if the panel or settings are locked.

The Menu choices on the right can be selected and the screen will change to show more detailed controls or programming functions.

ICON Specifications

or Adjust temp higher or lower
= Jet Control Icon brings up a screen where the jets, blower, etc can be controlled.
= Settings Icon

NAVIGATION

Navigating the entire menu structure is done by touching the screen. The three screen selections indicated below can be selected. Touch one of these to enter a different screen with additional controls. Most menu screens time out and revert to the main screen after 30 seconds of no activity.

MESSAGES

At the bottom of the screen, at certain times an indicator may appear showing that a message is waiting. Touch this indicator to go to the Message Display Screen. On that Screen some of the messages can be dismissed.

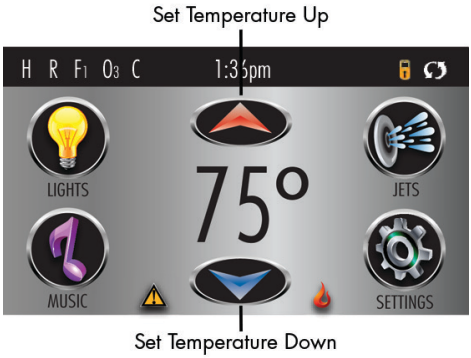

SET TEMPERATURE SCREEN

Set Temperature
Press Up or Down to modify the Set Temperature. The Set Temperature changes immediately.

If you need to switch between high range and low range you need to go to the Settings Screen.

Press-and-Hold
If the Up or Down button is pressed and held, the temperature will continue to change until the button is released, or the Temperature Range limits are reached.

SPA SCREEN

All Equipment Access

Select the Jets icon to navigate to the SPA screen.

The Spa Screen shows all available equipment* to control, as well as other features, like Invert. The display shows icons that are related to the equipment installed on a particular spa model, so this screen may change depending on the installation. The icon buttons are used to select and control individual devices. Some devices, like pumps, may have more than one ON state, so the icon will change to reflect the state that the equipment is in. Below are some examples of 2-speed Pump indicators.

Jets Inactive (no animation)

Jets Low (animation)

Jets High (animation)

If the Spa has a Circ Pump, a Circ Pump Icon will appear to indicate its activity, but outside of Priming Mode, the Circ Pump cannot be controlled directly.
